

VACANCY – Technical & Quality Manager

Salary Band - £30K - £35K dependent on qualifications and experience.

Sunvic Controls is a high quality brand manufacturer of heating controls for the domestic and export market. We require a suitably experienced individual to join our management team and lead our quality and technical requirements as we introduce new energy efficient heating controls into the market.

You will manage an experienced team and take full management responsibility for the success of our Quality & Technical requirements.

The ideal candidate will have had previous experience in a manufacturing company and be familiar with managing the Quality function and maintaining ISO 9001: 2000 accreditation. In addition to this aspect of the Quality component of the role, the person will have full responsibility for ensuring the required product quality standards are maintained and improved at our factory in Uddingston.

The role also encompasses the Technical Support function. While we do not require someone with a design engineering qualification, we do look for a strong background in technical engineering and manufacturing where the individual is comfortable with ensuring testing and approval standards are identified and complied with for the introduction of new products. The post will play a key role within our New Products team and will report directly to the Operations Director.

The normal hours of work will be 37 per week commencing at 07:30 hrs Mon – Fri. As a member of our management team you will be expected to work additional hours when your role requires it in order to ensure your department functions in line with the business needs.

A company pension plan is offered along with 25 annual days holiday which are in addition to the Scottish Bank Holidays. A management bonus scheme will be offered based on target achievement and performance.

If you think you have the required attributes and want the challenge of working for an expanding company where you would fit in as a valued member of a friendly management team then please submit your cv and covering letter to:

The Operations Director
Sunvic Controls
Bellshill Rd
Uddingston
G71 6N
